# TECHNICAL REGULATIONS

 PLEASE READ THE FOLLOWING DOCUMENT CAREFULLY!

## ASSEMBLING

It is strictly prohibited to drill, screw, nail or stick anything onto the walls, cladding, pillars or floors of the halls.

Mountings situated high up against the walls of the halls are allowed, on condition that the vertical structures of the halls (posts, cordoning bars etc.) are not used. The interior rules of the Eurexo centre may be accessed [here](#).

If you have a common wall with a neighbour exhibitor, the back of any adjoining walls must be clean, no logo out of respect for your neighbour. The Logistics department reserves the right to ask that the walls be modified before and during the exhibition if these conditions are not respected.

Last day of setting up, no motorized engines will be allowed in the hall (except with special request).

## ELECTRICAL INSTALLATION FOR YOUR STANDS

The exhibitor remains responsible for the outlet supplied on site.

The outlet must remain accessible to support staff at all times.

The exhibitor and his stand constructor are the only people in charge of their booth's electrical connections. They are responsible for the necessary equipment to connect their installations.

It is officially prohibited to make use of private installations in the Exhibition Center (technical trunking in the halls) for passing electrical cables through to the stands. No connection (overhead or on the ground) is permitted in order to link up one stand to another of the same company, where it is separated by a walkway.

The current legislation imposes one outlet per booth. Only outlet supplies provided by the Exhibition Center are authorized on the booth. Connexion between two stands is strictly forbidden.

The electrical consumption is included in the outlet rent from the first day of construction until the last day of disassembling.

The organization reserves the right to bill more for excessive consumption at night.

During the mounting and the disassembling, technical electrical boxes are at your disposal in the central pillars of the halls.

We deeply recommend installing a technical floor for your water, air and electricity junctions to the ground (so that the carpet will not warp).

In hall 3.2, the electricity comes from the roof. In all the remaining halls, electricity comes from technical gutter on the ground.

## IMPORTANT! SECURITY CERTIFICATE

DÖT company is in charge of the security plan of our exhibition. You must return them the documents, downloadable [here](#).

Wearing safety shoes (reinforced toe caps + antiperforationsoles) is obligatory for anyone who enters on site during the setting up (**Saturday, February 1<sup>st</sup> from 12pm until Tuesday, February 4<sup>th</sup> at 10am**) and the dismantling (**Thursday, February 6<sup>th</sup> from 5pm**). For all people working from elevated platforms and any task presenting a risk, wearing a hard hat is compulsory.

## STAND DISASSEMBLING

**Warning: cherry pickers will be allowed inside the halls from 6pm and forklifts from 7pm. Trailers will be released from the holding car park at around 8pm.**

The stand's site must be restored to its original state. Any refuse (mats, stickers, constructions) must be removed.

Any damage noticed during the stand disassembling will be invoiced to the exhibitor concerned. The exhibitor is responsible for their service providers.

**We rent the halls until Friday, February 7<sup>th</sup> at midday. Hereafter, remaining pallets will be thrown and an extra cost will be invoiced to all stands not evacuated.**

**REMINDER: FOR SHELL SCHEME STAND!** We remind you that partitions must be returned in its original state: tapes and adhesives must be taken off. Hammering, nailing or drilling into the partitions is forbidden. Damaged partitions will be invoiced to the exhibitor.

## FLOOR WEIGHT RESTRICTIONS

Floor weight supported in the halls is 1,5 tons / m<sup>2</sup>.

Machinery or elements constituting the stand that exceed this limit must obtain permission from the SEPEL-EUREXPO design office for their implementation.

# TECHNICAL REGULATIONS

 PLEASE READ THE FOLLOWING DOCUMENT CAREFULLY!

## MATERIAL

The exposition material should be consistent with the security norms currently in force.

## GOODS HANDLING

You can access the interior of the halls via doors situated along the outside of the building. Only exhibition vehicles and goods handling machinery clearly identified (identification on the vehicle) are allowed to enter the halls. Please contact our officials providers [ESI](#), [GONDRAND](#) or [CLAMAGERAN](#) to unload and deliver your goods on stand. You will find our certified providers contacts in the exhibitor's guide on page 12 or in our exhibition website. The parking bays located nearby the halls may be used by installers and exhibitors.

## STORAGE

A storage area (reserved for **empty and oversized items**) is at your disposal. Please note that all storage areas have to be returned empty and clean and that packaging should be easily identifiable: company name, stand number and a phone number so we can be able to reach you on site. This area must remain clean. You have to reclaim your own parcels. **Remaining pallets and boxes will be considered waste from Friday, February 7<sup>th</sup> at 2pm and will be destroyed.**

**The storage area, located hall 3.2, is only guarded from Friday, February 31<sup>st</sup> until Monday 3<sup>rd</sup> at 7pm. During the show opening, the storage area dedicated for empties will not be guarded except if you contract this service with our officials providers..**

## WASTE

If more than 1 m<sup>3</sup> of waste is present in the booth, you will be invoiced for the handling and removal of the waste.

## EMERGENCY EXITS

As a general rule, all means provided for emergencies (fire hose cabinets, extinguishers, detection systems) must be permanently accessible. The fire hose cabinets located on the hall's pillars, as well as those located on the interior of a stand, may, together with the pillar, be decorated, but they must remain visible and accessible at all times.

## INSURANCE

The organiser took out for itself Exhibition Civil Responsibility insurance cover. **It is the responsibility of the exhibitor to take out liability insurance on their own account.** If a theft occurs on a stand, the exhibitor cannot take action against the organiser, he must file a complaint at the police station.

## USEFUL INFORMATION

The Eurexpo reception area includes: Parking pay station / Cash machines / Drinks vending machines / Medical station.

## MUSICAL ANIMATIONS

Any animation project with music and/or sound on the stand must be submitted to the organisation for approval. Schedules and decibels are subject to specific regulations. **Please contact the organizer to submit your project for validation.**

## FLYERS & PROSPECTUS

No brochures may be handed out beyond the stands.

# TECHNICAL REGULATIONS

**► PLEASE READ THE FOLLOWING DOCUMENT CAREFULLY!**

## RÈGLES DE CONSTRUCTION

### CONSTRUCTION HEIGHT

All constructions should not overpass 5,50m high.

Except for "Passage 3" maximum height 4m;

Hall 3.2: height 5m.

A plan is available [here](#).

### HANGING UP HEIGHT

The maximum height of hanging points is set at 6,50m.

Except in hall 3.2: height of hanging points set at 5m maximum.

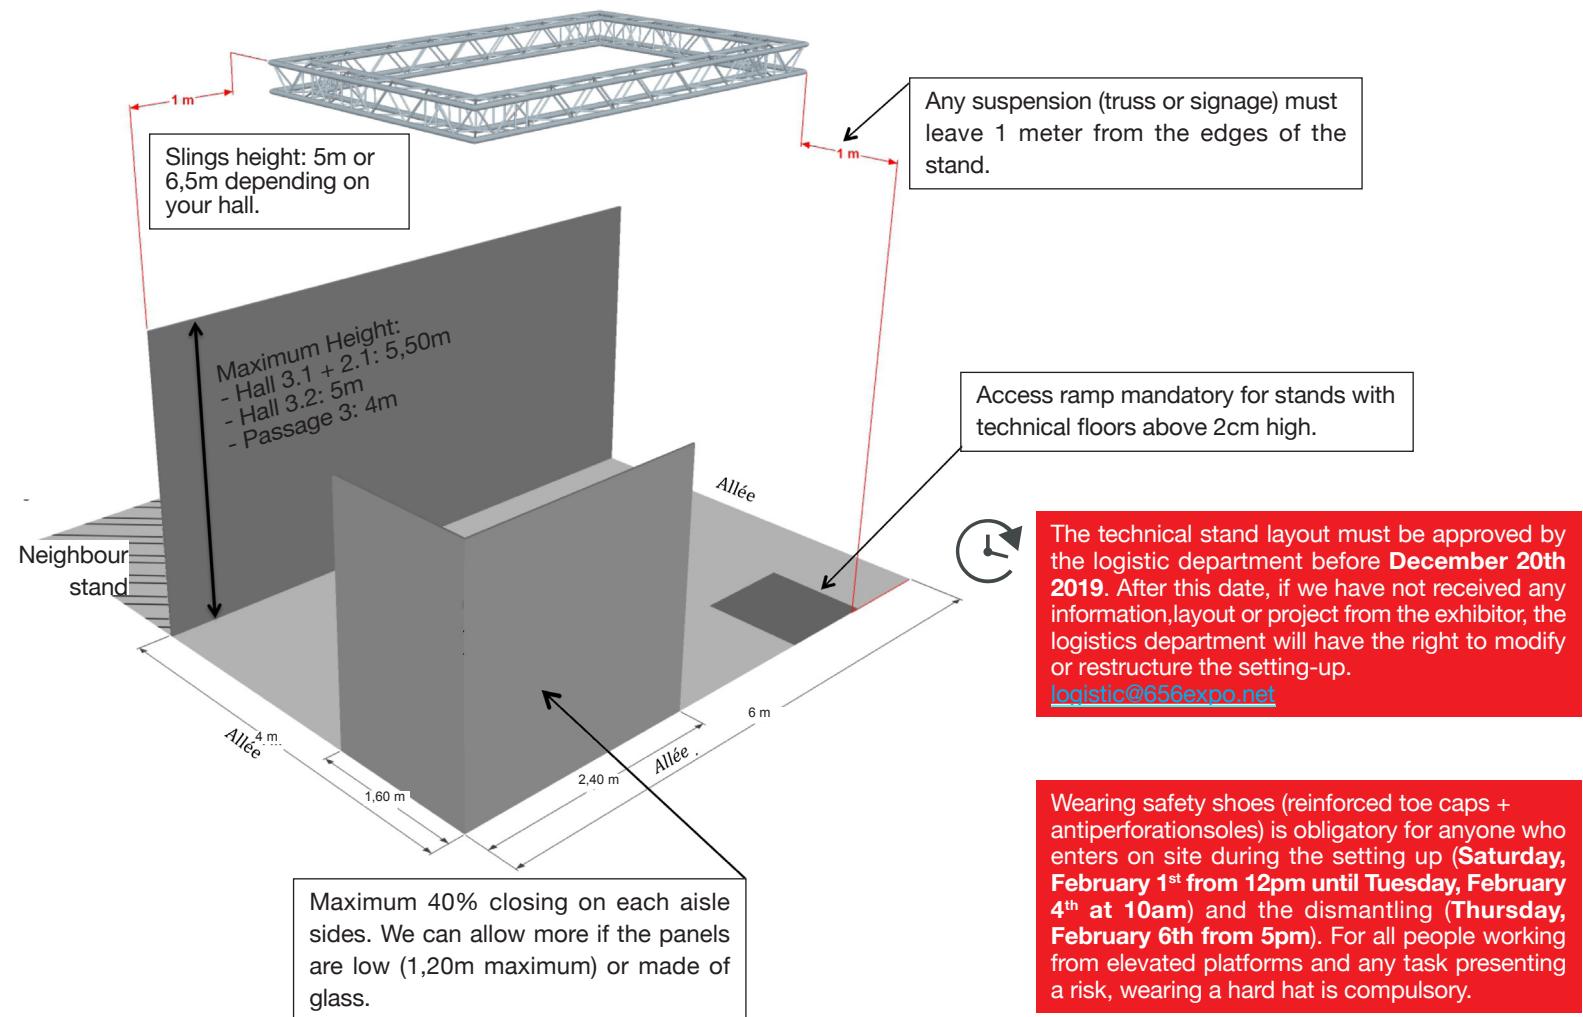

No hanging points possible under "passage 3".

A plan is available [here](#).

Suspensions and slings require a feasibility study request owing to a weight restriction.

Please order the equipment as soon as possible to ensure the availability of this service directly on [the platform](#) or [accrochage@eurexpo.com](mailto:accrochage@eurexpo.com).

All project with a two-floor stand require a feasibility study from your engineer and approval from the comercial and logistic departments.

## SHELL SCHEME STAND

ORDERS MUST BE FINISHED ON  
**DECEMBER 20<sup>TH</sup> 2019 !\***

# TECHNICAL ORDERS

**When can I access my booth ?**  
**MONDAY, FEBRUARY 3<sup>RD</sup> 2020 FROM 2:00PM**

## Included services

- Black or grey carpet (grey by default)

<b>GARANTIE FACULTATIVE COMPLÉMENTAIRE</b> (adhésion jointe en annexe à remplir)		
1. Ecrans plasmas ou LCD ou LED ou technologie similaire .....	300 EUR	
2. Bris des objets de nature fragile cassante .....	300 EUR	
3. Transport du matériel, des objets et/ou des marchandises assurés aller et retour, y compris chargement et déchargement .....	300 EUR	

### 1. DEFINITIONS

**Assuré :** Personne officiellement inscrite à la manifestation, et ayant acquis leurs droits d'inscription auprès d'ETAI (preneur d'assurance).

**Cession des garanties :** Date à laquelle la garantie expire sans autre avis pour l'exposant.

**Code :** Le Code des Assurances.

**Déchéance :** Date à l'expiration duquel une action ne peut plus être entreprise.

**Sinistre :** Toute les conséquences dommageables dues à une cause susceptible d'entraîner notre garantie.

**Subrogation :** Transmission à notre bénéfice du droit de recours que possède l'assuré contre un tiers responsable.

**Suspension :** La cessation du bénéfice de la garantie, lorsque l'assuré n'est pas résilié, ni annulé. Elle prend fin par la remise en vigueur de la garantie ou la résiliation du contrat.

**Tempête :** Souffle sous dur : Vent d'une force telle qu'il détruit, bise ou endommage un certain nombre de bâtiments de bonne construction dans la commune du risque sinistré ou dans les communes avoisinantes.

**Salons en extérieur et structure légère :** Vent soufflant avec une force de 60 KM/hour.

**Virus informatique :** Les instructions ou ensemble d'instructions introduits sans autorisation dans un système d'information, quelque soit leur mode de propagation et susceptibles d'entrainer des perturbations ou actes malveillants dans le fonctionnement du système ou du matériel de traitement de données.

**Garantie complémentaire facultative**

Assurance souscrite au delà du premier risque en cas d'insuffisance de capitaux ou pour des biens exclus de la garantie en premier risque (cf tableau)

### 2. DOMMAGES AU MATERIEL, OBJETS ET/OU MARCHANDISES DES EXPOSANTS

#### 2.1 OBJET DE LA GARANTIE

### Préneur d'Assurance : ETI, ANTONI, PARC 2 - 10 PL. DU GÉNÉRAL DE GAULLE - 92130 GENnevilliers

Nous déclassons le matériel, les objets et/ou marchandises assurés dans la limite du montant fixé au tableau ci-dessus, contre les risques de vol, perte, incendie, explosion, dégâts occasionnés par les eaux et dommages accidentels (y compris catastrophes d'origine naturelle, attentats et actes de terrorisme ou de sabotage). La garantie s'exerce sur le lieu de l'exposition le temps du salon (délais pour le montage et le démontage inclus).

**Les garanties complémentaires facultatives** ne sont accordées que si elles sont demandées par l'exposant sur le bulletin prévu à cet effet après règlement de cotisation spéciale prévue à cet effet :

**Options possibles sur déclaration**

1. Ecrans plasmas ou LCD ou LED ou technologie similaire

2. Bris des objets de nature fragile ou cassante

3. Transport du matériel, des objets et/ou des marchandises assurés aller et retour, y compris chargement et déchargement.

### 2.2 EXCLUSIONS

■ **EN VOL OU COMMIS DANS UN VÉHICULE :** LORGUILL EST GARE DANS L'ENCEINTE DE LIEU DE LA MANIFESTATION (sauf en cours de chargement /déchargement si option transport demandée);

■ **EN COURS DE TRANSPORT PUBLIC (si extension demandée), LES VOLZ COMMIS DANS UN VÉHICULE :**

- S'il n'y a pas effraction ou vol du véhicule lui-même, celui-ci devant être de carrosserie entièrement rigide, c'est-à-dire sans parties tôlees ;
